

LINEAR ACTUATORS

Series TMD

CAPACITY:	100 - 250 lbs (444 - 1112 N)
SPEED:	0.4 - 1.0 in/s
VOLTAGE:	12 or 24 VDC
TEMPERATURE RANGE:	25°F - 120°F (-4°C - 50°C)
ENVIRONMENTAL RATING:	IP50 protection

Low temperature grease available please consult the factory

FEATURES & BENEFITS

- Ideal for applications with light loads and limited space
- Belt drive for quiet operation
- Corrosion resistant housing
- Keyed translating tube eliminates the need for restraining torque
- Terminal strip for easy limit switch integration

OPTIONS

- Adjustable limit switch for safe and repeatable positioning
- Pulse generator for precise positioning feedback

CATALOG NUMBER CONFIGURATION KEY

Example:
TMD01-1906 -10 =
 Standard, 12 VDC, 100
 lb load, 10 inch stroke
